Decimber 14th 1946

Mrs. Abraham Trabulsy.

Detroit 6, Michigan.

Dear Madam Trabulsy: God bless you and yours. I hope you are well.

Afriend of your Daughter Jenny's, Miss Rose Paris, writes me that Jenny is
very low with poleo and asks for prayers, that if it be God's holy will
she recover. I am enrolling Jenny in what we call the Seraphic Mass
Association for prayers of hundreds of thousands of people.

The members of this association are asked to pray for our foreign mission-
aries and their work and for oneanother; those members ofcourse who can
pray. Also those who can afforde to do so are asked to help with an offer-
ing of somekind besides by prayers and Masses. I am confident that this will
help your Jenny. This especially if you and yours do your part.

You will get an idea of what I mean by telling you of a remarkable case in
Detroit about four years ago. I made a note of it at the time which was
about as follows.

"Jan. 9th. Judge Healy called this evening: '... There is a cer-
tain Dr. Kleitzer in my office whose only child is very low with
spinal maningitis and the Dr's give him very little hope of re-
covery. He is not a Catholic or a Christian. He is a Jew, a good,
God fearing fellow. 'I wish you would enroll the boy in the Mass
Association and pray for him. 'I'll be glad to do that.' I an-
swered. 'Tell the parents I'd like to see them.' 'I'll bring
them over tomorrow.' he answered"

"Next day (Saturday), I saw them - the judge and the Dr. waiting
over in the corner about 1:15 p.m." Introduced to the
doctor. I asked, " .. How is the boy?" "Well, he slept last night!"
(the first time in a week) "Now Dr., I have a proposition I want
you to make to the Good God yourself. "I understand you're a Jew."
"Yes." "That is Okay Dr. After all if religion can be defined as
a science and I claim it is unquestionably the greatest science of
all times; In fact it is nothing less than "THE SCIENCE OF OUR HAPPY
RELATIONSHIP WITH GOD AND OUR NEIGHBOR.", then there can be but one
religion, though there may be a thousand different systems of re-
ligion." "Dr. seemed pleased but said nothing.
