

1948, June 1

Mrs. Helena Casey Wilhite

Page 4

"Man proposes; but God disposes" is an old proverb that has borne out truth of Scripture millions of times. And just these days of Atomic invention, it would seem that God might be permitting men without faith to be preparing the fearfully poisoned lightening fires with which He will arm His angels of wrath on an adulterous, defiant, atheistic generation.

Another few lines from above referred-to:

"In a cold winter night I will let thunder resound over the earth so that the very mountains will quiver. Quickly close your doors and windows; veil all vision to the outside world. Let not your eyes profane the most terrible of all happenings with curious glances; for thrice holy is the wrath of God which will purify the earth for you, my remaining faithful flock. Commit yourselves to the protection of My holy Mother; and be not dismayed...."

Thanks be to God for all things!

Fr. Solanus Praised be Jesus!

P.S. What I'd like to stress is the very insanity of trying to reckon on anything material these days as amounting to anything of importance aside from its use in promoting the glory of God and charity toward lifting humanity -- and the necessarily very short time such material things hold their evaluation, etc.

P.S. II Dear Helena I am sending your letter on to Fr. E'd.....
Self understood you need not give - deliver the inclosed cards but if opportune - of course.
